Low Cost Financing with Predictable Payments

IPTECHVIEW has secured a special blended rate that effectively eliminates financing costs on the subscription portion. Here's how it works:

Blended Interest Rate

Interest of subscription component is free. This lowers the blended interest of equipment, installation, and subscription rate of 3.9%.*

Predictable Budgeting

Your customers can plan their finances with confidence, knowing there will be no surprises or price hikes.

Ownership & Flexibility

Once lease payments are complete, the equipment is fully paid off. Your customer continues with just the subscription.

*Rate may vary. Interest rate is set by Ascentium Capital and depends on market interests at application time, and customer credit score. Ascentium Capital has final decision making on granting financing or not.

Flexible Leasing Options

IPTECHVIEW has secured a special blended rate that effectively eliminates financing costs on the subscription portion. Here's how it works:

- Choose from **36 or 60-month** payment plans to best suit your customers' needs.
- **Quick Credit Decisions:** Most approvals are made within **1-2 hours**, ensuring your projects stay on track.
- **All-Inclusive:** The monthly payment covers **everything**—from hardware and installation to ongoing subscriptions and services.
